

PowerChek™ SARS-CoV-2 Real-time PCR Kit series

SARS-CoV-2 Detection

by Real-time PCR assay

Fast & Accurate Testing for SARS-CoV-2

- 1st approved EUA Kit in Korea
- High sensitivity & specificity
- ISO 13485
- One-step Real-time RT-PCR assay

Coronavirus disease 2019 Outbreak!

PowerChek™ SARS-CoV-2 Real-time PCR Kit series v.2.0

SARS-CoV-2 is a virus identified as the cause of an outbreak of respiratory illness first detected in Wuhan, China. Coronaviruses are a large family of viruses. Some cause illness in people; numerous other coronaviruses circulate among animals, including camels, cats, and bats. Rarely, animal coronaviruses can infect people and then spread between people such as with MERS and SARS. COVID-19 has resulted in more than several thousand confirmed cases in China, including cases outside China. Additional cases have been identified in a growing number of other international locations.

PowerChek™ SARS-CoV-2 Real-time PCR Kit series provide the fast and accurate testing solution for SARS-CoV-2. KogeneBiotech is engaged with relevant organizations in Korea, to supply the test kits and offer additional respiratory viral detection solutions for diagnosis by exclusion.

Key Features

- 1st approved EUA Kit in Korea
- R&D know-how & scaled-up producing experience with quality control at MERS-CoV outbreaks in 2015
- Based on WHO & CDC reference method
- Highly specific detection for all registered SARS-CoV-2 sequence database
- One-step Real-time RT PCR assay Kit
- Including internal control, positive control and all necessary reagents

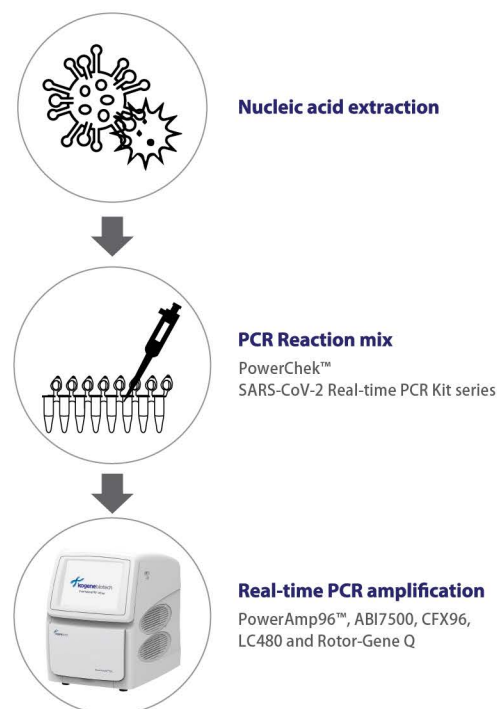

Specimens

- Nasopharyngeal swab
- Bronchoalveolar lavage fluid
- Oropharyngeal swab
- Sputum

Ordering information

Cat No.	Product	Target	Fluorophore	Size
IR6902	PowerChek™ SARS-CoV-2 Real-time PCR Kit [Multiplex]	E, ORF1ab, IC	FAM, JOE (or HEX), Cy5	100
R6900TD	PowerChek™ 2019-nCoV Real-time PCR Kit [Singleplex]	E, RdRp, IC	FAM, JOE (or HEX)	100
Cat No.	Nucleic acid extraction Kit			Size
E0007	PowerPrep™ Viral DNA/RNA Extraction Kit			50
